

HunterDouglas

The Art of Window Dressing™

Style gets smarter.

An attractive window and the right light can change everything—from your room to your mood. At Hunter Douglas, we have mastered the art of window dressing by engineering innovative functions into stylish, versatile looks for every window in your house.

We're the leaders in light control, energy efficiency, operating systems and motorization, which makes your home smarter, your days easier, and every room that much prettier.

Enhancing light, ensuring privacy.

Natural light constantly changes and shifts through the day—as does what we expect from our windows. We want full sun one moment, low light the next; a clear view, then a discreet screen. Our sheers, shades, blinds and shutters help you balance the light you want with the privacy you need.

At Hunter Douglas, **privacy and light** are interrelated. Our designs, in a wide array of materials, colors, and opacities, let you control light effectively and customize your privacy throughout the day. And our sheers and other select styles are specially designed to diffuse and draw light deeper into a room, helping to illuminate your home naturally. To help make the best selection for you, refer to the chart next to each product in this book, which indicates the amount of light and privacy you can expect—from sheer (1) to opaque (5).

Sunlight is warm and welcoming, but without **ultraviolet (UV) protection**, over time it can fade and damage a room’s furnishings and décor. Our products offer ultraviolet protection to help counter its harmful effects.

Color. Pattern. Texture. Weave.

At Hunter Douglas, beauty is more than skin deep, but first impressions matter. That's why textile sourcing is a crucial part of our design process, and it's why we've established relationships with some of the world's best mills. We work with textile houses to develop and design exclusive materials that are as special as our technological innovations.

That means fabrics that subtly reflect and control light in intriguing ways. Richer, more fashionable colors, luxurious weaves and unusual textures. Even special characteristics, like our MicroShield™ antimicrobial fabric protection. In all, we've created a collection of more than 300 timeless fabrics, woven with the finest blends of cottons, linens, silks and synthetics to add beauty, style, and enhanced livability to every room in the house.

Elegant. Energy efficient.

Windows do more than just let in light and offer a view to the outdoors. They're also where a home can lose up to 50% of its heating and cooling energy. With energy-efficient styles that offer varying levels of window insulation, our designs let you create inviting environments regardless of the season. Here are a few of their benefits.

Heat moves toward cold, and windows offer a perfect path: it enters your home there in the summer, exits there in winter. The **insulating effect** of many Hunter Douglas styles can help lower your energy consumption and costs.

Controlling solar heat is another aspect of our energy-efficient styles. Although the sun's warming effect might be welcomed during the winter, come summer it can make a room uncomfortable and expensive to cool. That's why many of our styles are designed to reduce the solar heat that passes through the window.

Because our sheers and certain other styles diffuse light as it passes through, they help **harness daylight** and draw it deeper into a room, reducing your needs for artificial lighting. And by tilting louvers and panels, you can direct incoming light where it's needed most.

You don't have to take our word for it. The **GREENGUARD® Environmental Institute** identifies Hunter Douglas products that meet its stringent indoor air quality guidelines, so you enjoy beauty that's environmentally friendly, too.

More shapes, more sizes.

We've yet to meet a window we couldn't cover attractively. At Hunter Douglas, every aesthetic aspect is included in our creative process, giving you an exceptional selection of tasteful, beautiful options in a complete range of shapes.

We love the charm and character **arches** add to a home, and our designs address the challenges they present in controlling light and creating privacy.

You'll discover a wide selection of our products that enhance the beauty of your **angled windows**, whether the shades are open or closed.

Trapezoid windows, with four sides but only one set of parallel sides, come in endless configurations and angles, but we've designed for all of them. Our Duette® honeycomb shades, Pirouette® and Silhouette® window shadings, Vignette® Modern Roman Shades and the Parkland™ wood blinds collection offer attractive options.

Although **circular, oval, hexagonal and octagonal windows** are among the rarest specialty window shapes, you'll find we have designed many clever styles for covering them.

Bay windows and corners beautifully define spaces as they bring more natural light into your home, and virtually every Hunter Douglas style offers a solution for covering them.

French doors offer an elegant transition between rooms and to the outdoors, and most Hunter Douglas styles accommodate them easily.

Designed with safety in mind.

As children grow, their curiosity with the world around them grows as well. Basic household items, including window coverings, can turn into potential hazards. Making window fashions that are safer for homes with infants, young children, and pets is a top priority for Hunter Douglas, and we have developed a wide range of products that can reduce the risk of accidents. For example, our Vignette® Modern Roman Shades are constructed without rear cords, for safer operation and a more aesthetically pleasing design.

Our window fashions, designed with safety in mind, are also a beautiful addition to your home's décor. From cordless manual and motorized operating systems, retractable lift cords, cord tensioners and wand controls, we offer a wide array of innovative design options for enhanced child and pet safety as well as especially easy operation. Choose from an array of fabrics and colors that complement current trends, yet are versatile enough to carry a child's room from nursery to toddler to teen.

Easy lifting.

We expect more out of everything we select for our homes today. That's why Hunter Douglas designs are more than just attractive, energy efficient and safe. Our wide variety of operating systems means they're also exceptionally easy to adjust.

Our revolutionary **UltraGlide® [1]** operating system uses a retractable cord mechanism to raise and lower window shades or blinds.

With the touch of a finger, our **LiteRise® [2]** cordless system adjusts blinds and shades. Push up to raise them, pull down to lower—and they stay right where you want them.

Maintain privacy while still enjoying natural light with our **top-down/bottom-up [3]** window shades and shadings, which let you operate the window treatments from either direction. Our Silhouette® window shadings with this feature also offer TiltAnywhere™, which lets you tilt the vanes regardless of the shading's position.

The **Vertiglide™ [4]** vertical pleat or fold system is ideal for side-to-side openings, sliding glass doors, or as a room divider. Featured on our Duette®, Duette Architella® and Applause® honeycomb shades, and Vignette® Modern Roman Shades.

Style gets smarter.

With the introduction of **PowerView™ Motorization**, Hunter Douglas is leading the revolution in intelligent home design with smart window treatments that can adapt to every moment of your day, and make each more beautiful.

PowerView is a new wireless system that lets you control the window treatments throughout your home from your smart phone, tablet, **Pebble™ Remote**, or **Pebble Scene Controller**. Better yet, use the PowerView App to schedule personalized Scenes to operate automatically in response to your unique light, privacy and comfort needs as they change throughout the day.

When you combine the advanced technology of PowerView with our unrivaled selection of sophisticated styles, fabrics and colors, you'll find the most beautiful window treatments are now also the most intelligent. Your window treatments will become such an essential part of the way you live, you'll wonder how you ever lived without them.

Beyond beautiful.

Beautiful windows are as much about what you don't see as what you do. Hunter Douglas engineers exceptional quality and modern functionality into timelessly stylish, versatile designs for your windows. From industry-leading innovation to the finest materials to assembly here in the United States, our commitment to the very best custom designs is unrivaled.

Enjoy Hunter Douglas **quality and innovation**, with beautiful materials and expert craftsmanship designed into every style. We feature the newest designs and technological advancements, such as the energy-saving honeycomb-within-a-honeycomb construction of our Duette® Architella® honeycomb shades.

Knowing the extremely high quality of our window treatments, Hunter Douglas confidently offers a **Limited Lifetime Warranty**.

All of our products are the result of **American design and craftsmanship**, and are custom-assembled right here in the United States. Hunter Douglas customers have enjoyed this commitment to quality for more than 60 years, and we offer the very finest customized choices in window dressing.

At Hunter Douglas, home and comfort matter a great deal to us, because they matter to people everywhere. We've long been a leader in **social responsibility** and charitable giving, with generous support of initiatives and causes contributing to the shelter and comfort of people in communities locally and around the world. Our work with Habitat for Humanity and helping people affected by natural disasters has been particularly gratifying.

Your investment in Hunter Douglas is always a wise one. Our beautiful designs, innovative engineering and smarter features deliver exceptional value for a lifetime.

Getting started. Dressing windows artfully and bringing light into a room beautifully can be done in many ways. Sheers and shadings are one approach to controlling light; shutters and blinds quite another. Soft folds offer a softer look, while crisp pleats feel more contemporary.

Consider, too, how you live in a room, and how important privacy is to you. Then, factor in your personal aesthetic: from sleek and contemporary to rich and traditional. You will find that whatever your desires, we have styles for every taste, every room, every moment.

Sheers and Shadings

Control the mood in a room gently, beautifully with these options, creating effects with soft fabrics and diffused natural light.

Honeycomb Shades

In our original energy-efficient designs, cleverly shaped cells offer energy savings year-round.

Roman Shades

Always a clean look, these shades offer soft, supple fabrics gathered into visible folds or hidden ones.

Roller Shades

These offer a simplified, classic look that works for any room in your home, with options from sheers to opaques, floral patterns to solid colors.

Horizontal Blinds

Precision-crafted from genuine oak, cherry, and other fine woods—or from realistic-looking wood alternatives and sleek aluminum—these offer many elegant looks.

Vertical Blinds

Select from wider, more contemporary panels to softly curved vanes that mimic draperies, all of them ideal for wide window expanses and sliding-glass doors.

Pleated Shades

Bold, modern colors add character to the crisp geometry of these styles, lending a contemporary look wherever they're used.

Woven Woods

Create a warm, natural backdrop in any room with light-filtering reeds and grasses or woods and wood alternatives.

Shutters

Keep the look classic but still have all the benefits of advanced, modern-day materials and long-lasting finishes.

Silhouette® Window Shadings

Transforming light. Like the subtle cast their name suggests, Silhouette® window shadings, with the Signature S-Vane,™ create beautiful and ambient light and shadow. Soft fabric vanes are suspended between two sheers, diffusing softened light deep into a room. Tilt the vanes to achieve the privacy you desire while maintaining UV protection.

Orientation: **Horizontal**
Width: **6"-144"**
Height: **12"-126"**
Motorization options: **Yes**
Specialty shape options: **Yes**
Privacy and light control: **1/2/3/4**

Luminette® Privacy Sheers

Privacy with softened light. Enjoy subdued light and the privacy of soft draperies in Luminette® Privacy Sheers. Fabric vanes rotate for privacy while controlling the light in a room. Perfect for large windows and sliding glass doors, their superior UV protection meets both your decorating and practical needs.

Orientation: **Vertical**
Width: **12"—192"**
Height: **24"—120"**
Motorization options: **Yes**
Specialty shape options: **No**
Privacy and light control: **1/2/3/4**

Pirouette[®] Window Shadings

Striking design, dramatically filtered light. With Pirouette[®] window shadings, the look and feel of a traditional fabric shade is enhanced: the gentle pull of a cord lets you change a room's lighting in a whole new way. Soft, horizontal fabric vanes close to filter natural light, or open to give you a perfect outside view. Our revolutionary Invisi-Lift[™] system allows the vanes to float gracefully, and even opened they offer UV protection and reduced glare through the sheer backing.

Orientation: **Horizontal**

Height: **15"—144"**
Motorization options: **Yes**
Specialty shape options: **Yes**
Privacy and light control: **1/2/3/4**

Duette® Architella® Honeycomb Shades

Exclusive fabrics, energy-saving innovations. Our state-of-the-art, patented design for these attractive shades incorporates three insulating air pockets reducing heat loss at the window by 40%. Duette® Architella® honeycomb shades offer luminous colors and crisp, consistent pleats. Lower them for privacy, or raise completely for maximum light and view—they're beautiful either way. Also consider our Architella Trielle™ Elan® shades. Their five insulating air pockets make it our most energy-efficient design yet.

Orientation: **Horizontal and vertical**
Width: **4"—174"**
Height: **6"—144"**
Motorization options: **Yes**
Specialty shape options: **Yes**
Privacy and light control: **2 / 3 / 4 / 5**

Duette® Honeycomb Shades

Smart design in crisp, neat pleats. Our innovative honeycomb construction creates air pockets where light meets color. Raising and lowering from top or bottom to suit the day and your activities, our Duette® honeycomb shades are an attractive, classic choice available in an impressive range of fabrics, pleat sizes, colors and textures.

Orientation: **Horizontal and vertical**
Width: **4"—174"**
Height: **6"—192"**
Motorization options: **Yes**
Specialty shape options: **Yes**
Privacy and light control: **1/2/3/4/5**

Solera[®] Soft Shades

Sophisticated, gently sculpted design. The fluid, uniquely sculpted look of these attractive shades is available in a variety of stylish fabrics. Our only soft shades with cellular construction, they offer both light-filtering and room-darkening opacities in all fabrics.

Orientation: **Horizontal**
 Width: **16"—135"**
 Height: **15"—108"**
 Motorization options: **Yes**
 Specialty shape options: **No**
 Privacy and light control: **3 / 5**

Vignette®

Modern Roman Shades

Simple, uncluttered, innovative. Luxurious fabrics and soft folds give Vignette® Modern Roman Shades a clean, crisp look, with the added benefit of enhanced child safety. Offered in semi-sheer, light-filtering and room-darkening fabrics, the range of styles and fold sizes help you create warm, inviting, beautiful windows.

Orientation: **Horizontal and vertical**
Width: **12"–140"**
Height: **12"–144"**
Motorization options: **Yes**
Specialty shape options: **Yes**
Privacy and light control: **2 / 3 / 4 / 5**

Design Studio™

Roman Shades

Customized through pattern and texture. Expertly crafted to order, these soft Roman shades offer elegant window coverings in more than 300 exquisite fabrics—from sophisticated designs, textures and stripes to solids, in blends of cottons, linens, silks and synthetics.

Orientation: **Horizontal**
Width: **15"—96"**
Height: **15"—120"**
Motorization options: **Yes**
Specialty shape options: **No**
Privacy and light control: **1/3/5**

Designer Roller Shades

Sophisticated but uncomplicated. For a look that's both custom and classic, our Designer Roller Shades offer a clean appearance in a beautiful range of 82 designer fabrics, along with a variety of design options and operating systems. Over half of these fabric styles are offered in the Harmony Program™—choose the same fabrics for your vertical and horizontal window fashions when you combine Designer Roller Shades with our Skyline® Gliding Window Panels.

Orientation: **Horizontal**
Width: **12"—120"**
Height: **12"—120"**
Motorization options: **Yes**
Specialty shape options: **No**
Privacy and light control: **1/2/3/4/5**

Designer Screen Shades

Balancing privacy with views. Screen shades can do more than just offer privacy and light; ours also let you enjoy the view outdoors all through the day. Our Designer Screen Shades are available in 57 fashionable styles and a wide range of opacities to bring in just the level of light you want—and they protect valuable furnishings from harmful UV rays, too.

Orientation: **Horizontal**
Width: **12"—192"**
Height: **12"—144"**
Motorization options: **Yes**
Specialty shape options: **No**
Privacy and light control: **1/2/3/4/5**

Pleated Shades

Energy in color and pattern. Here, privacy comes in a look that’s classic and elegant, but with a contemporary flair. Bold patterns and designs are featured in woven fabrics with interesting textures, strong color choices, and varying levels of opacity.

Orientation: **Horizontal**
Width: **8"–144"**
Height: **6"–96"**
Motorization options: **Yes**
Specialty shape options: **No**
Privacy and light control: **2 / 3 / 4**

Provenance® Woven Wood Shades

Natural warmth and beauty. Crafted from natural woods, reeds, bamboo and grasses, our Provenance® woven wood shades are attractive lowered, or when raised to form even, overlapping folds. Decorative edge banding and style options for valances let you create tasteful, custom window fashions with ease.

Orientation: **Horizontal**
Width: **12"—144"**
Height: **17"—108"**
Motorization options: **Yes**
Specialty shape options: **Yes**
Privacy and light control: **1/2/3/4/5**

Parkland™ Wood Blinds

Fine woods, timeless design. Traditional styling and rich hardwood slats let our Parkland™ wood blinds complement the lines of any room. Fashioned to create a warm and inviting home, they're available in a variety of colors and four slat sizes. Advanced finishing technology is used on Parkland wood blinds to provide maximum protection and beauty.

Width: **6"—96"**
Height: **12"—120"**
Motorization options: **Yes**
Specialty shape options: **Yes**
Privacy and light control: **1/2/3/4/5**

EverWood® Collection

Alternative Wood Blinds

Alternative wood gives amazing performance. This smart alternative to wood blinds has classic good looks that don't age. In realistic TruGrain® finishes or a large selection of whites, and with operating and decorative upgrades available. They're guaranteed against fading, yellowing, warping or bowing—which makes them perfect for the humidity of bathrooms or rooms that generally receive full sun.

Height: **6"-126"**
Motorization options: **Yes**
Specialty shape options: **No**
Privacy and light control: **1/2/3/4/5**

Skyline®

Gliding Window Panels

Contemporary lines for a dash of urban drama. Clean, crisp and modern, Skyline® Gliding Window Panels offer a sleek answer for both large and small window expanses. Open, they stack tightly to offer the maximum view; closed, they display their rich fabrics and texture. They also make a stylish and effective room divider system, and coordinate with Designer Screen Shades and Designer Roller Shades.

Orientation: **Vertical**
Width: **28"-384"**
